

INFERNO[®]

PROPANE TORCH

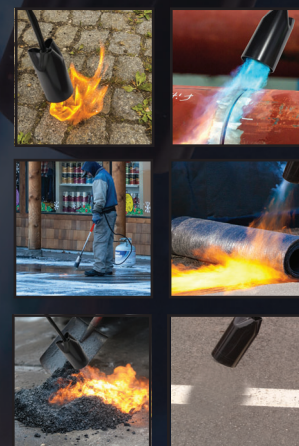

For applications that require large volumes of heat. The INFERNO[®] delivers a massive 500,000 BTU output that makes it perfect for:

- Repairing road surfaces
- Removing paint
- Burning brush, weeds and stumps
- Melting snow and ice
- Roofing, melting tar and asphalt
- Preheating metal

FEATURES

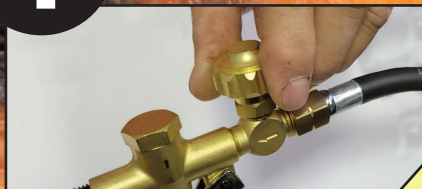

- 500,000 BTU heat output
- Solid brass valve for precise flame adjustment
- 10" LP gas hose with 9/16"-18 "B" fitting
- Works with 20, 33 or 100 lb. propane cylinders
- Built-in excessive gas flow safety valve
- Environmentally friendly - uses clean-burning LP gases

*Torch flame color and pattern may appear different depending on application being used for.
