

TIG Foot Pedal

MACHINE COMPATIBILITY LIST

LINCOLN ELECTRIC Part Number : K4361-1

This foot pedal controls the amperage when TIG welding. Depress pedal to increase current. Depressing pedal fully achieves maximum set current. Fully raising the pedal finishes the weld and starts the post-flow gas cycle. This foot pedal will provide the optimum amperage needed for any TIG welding project.

Compatible machines feature a circular 8 pin connector.

Foot pedal with attached 13 foot cable with a circular 8 pin connector.

Ordering information

Part No.: K4361-1

Each UPC Code: 015082832982

Ships one TIG foot pedal in a box

COMPATIBLE WITH THE FOLLOWING MACHINES

WELD-PAK®
180i MP DV
Part No.: K5257-1

LE31MP®
Part No.: K3461-1
